In commemoration of the International Health Day 2020, We highlight published research papers by our teams on different aspects of nursing care in Kenya. This is in celebration of the International Year of the Nurses and the Midwives.

**Lessons from health policy and systems research programme exploring the quality and coverage of newborn care in Kenya**
https://gh.bmj.com/content/5/1/e001937

**Informal task sharing practices in inpatient newborn settings in a lowincome setting—A task analysis approach**

**Effective coverage and budget implications of skill-mix change to improve neonatal nursing care: an explorative simulation study in Kenya**
https://gh.bmj.com/content/4/6/e001817

**Collective strategies to cope with work related stress among nurses in resource constrained settings: An ethnography of neonatal nursing in Kenya**

**Exploring the space for task shifting to support nursing on neonatal wards in Kenyan public hospitals**

**Missed nursing care in newborn units: a cross-sectional direct observational study**
https://qualitysafety.bmj.com/content/29/1/19

**Nursing knowledge of essential maternal and newborn care in a high-mortality urban African setting: A cross-sectional study**

**Quantifying nursing care delivered in Kenyan newborn units: protocol for a cross-sectional direct observational study**
https://bmjopen.bmj.com/content/8/7/e022020

**Exploring the space for task shifting to support nursing on neonatal wards in Kenyan public hospitals**

**Neonatal nursing policy and practice in Kenya: Key stakeholders and their views on task-shifting as an intervention to improve care quality.**
https://wellcomeopenresearch.org/articles/3-35/v1

**Expectations for nursing care in newborn units in Kenya: moving from implicit to explicit standards**
https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5875677/
